SMART Office Support for Adam Walsh Act Implementation Grant Program CDFA #16.580

Overview of the SMART Office Support for Adam Walsh Act Implementation Grant Program

The Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking (SMART) Office Support for Adam Walsh Act Implementation Grant Program assists state, local, and tribal jurisdictions with developing and/or enhancing programs designed to implement the Sex Offender Registration and Notification Act (SORNA) under the Adam Walsh Act (AWA) (42 U.S.C § 16901 et seq.) and provides a specific emphasis on address verification projects. This program is funded under the Edward Byrne Memorial Discretionary Grants Program, as authorized under Pub. L. 110-5, embedded secs. 101-104; Pub. L. 109-108, 119 Stat. 2290, 2300; 42 U.S.C. 3760-3762a as in effect in September 30, 2006.

Deadline: Registration

Registering with Grants.gov is a one-time process; however, if you are a first-time registrant, it could take up to several weeks to have your registration validated and confirmed and to receive your user password. It is highly recommended you start the registration process as early as possible to prevent delays in submitting your application package to our agency by the deadline specified. There are three steps that you must complete before you are able to register: 1) register with Central Contractor Registry (CCR), 2) register yourself as an Authorized Organization Representative (AOR), and 3) be authorized as an AOR in your organization. For more information, go to www.grants.gov. **Note: Your CCR registration must be renewed once a year. Failure to renew your CCR registration will prohibit submission of a grant application through Grants.gov.**

Deadline: Applications

The due date for applying for funding under this announcement is 8:00 p.m. e.t. on September 4, 2007.

Eligibility

Eligible applicants under this initiative are limited to states, units of local government, and Indian tribes and tribal organizations. A unit of local government is a town; township; village; parish; city; county; other general purpose political subdivision of a state; or a federally recognized Indian tribe.

Adam Walsh Act Implementation Grant Program-Specific Information

All awards are subject to the availability of appropriated funds and any modifications or additional requirements that may be imposed by law.

The Adam Walsh Act (AWA) Implementation Grant Program assists state, local, and tribal jurisdictions with developing and/or enhancing programs designed to implement the Sex Offender Registration and Notification Act (SORNA) under AWA. In summary, SORNA requires: (1) all states, the District of Columbia, U.S. territories and possessions, and Indian tribes (jurisdictions) to maintain a sex offender registry; and (2) sex offenders to register and maintain a current registration in each jurisdiction where the offender resides, is an employee, and is a student. Also, it sets forth requirements for sex offender registries, including required information, duration of registration, and in-person verification of sex offender identity. For more specific information about compliance with SORNA and access to the Proposed Guidelines, please visit www.ojp.usdoj.gov/smart/guidelines.htm.

For information and resources on AWA, visit www.ojp.usdoj.gov/smart.

In developing and/or enhancing programs designed to implement SORNA, applicants may propose specific strategies and projects including, but not limited to:

- Developing and enhancing specialized units and functions in law enforcement agencies in furtherance of the objectives of the program.
- Developing or enhancing sex offender registration programs or functions.
- Improving law enforcement and other justice agency information sharing as it relates to investigation and prevention of sex crimes and offender accountability.
- Developing or enhancing local absconder apprehension efforts.
- Collecting, storing, analyzing, and using sex offender biometric data (fingerprints) and DNA for investigative purposes.
- Providing support for coordinated interagency and interjurisdictional efforts in these areas.
- Providing public education and outreach to promote safety against sexual predation.
- Supporting address verification of sex offenders in a jurisdictional area or areas.

For address verification, a variety of methods will be considered and include, but are not limited to personal contact, registered mail, Internet/electronic, and kiosk. The application shall specifically state the authority and responsibility of the agency to verify sex offender addresses and how the proposed verification process will augment the state sex offender registry. Projects that provide electronic transfer of information for update of the state sex offender registry will be given priority consideration.

The grant application should also provide a sustainability plan to identify how the proposed address verification program can continue to operate after creation. This would also include those applicants who are applying for funds for an existing program. Applicants are encouraged to include an evaluation component of their address verification strategy and will be asked to report program performance data so that the strategies funded through the program can be assessed and to enable the SMART Office to meet its obligations to report to the Congress on the cost effectiveness of this program.

In future fiscal years, the SMART Office intends to offer assistance to local communities that will include technology/equipment enhancements. For this reason, it is recommended that

applicants avoid proposals that include high equipment costs or that focus substantially on computer hardware purchases.

Amount and Length of Awards

Individual grant awards will be up to \$300,000 for a period of up to 12 months. A total of \$12.8 million is available for this program. Ten percent of this amount will be set-aside for tribal jurisdictions.

Match Requirement

A grant made under this program may not cover more than 75 percent of the total costs of the project being funded. The applicant must identify the source of the 25 percent non-federal portion of the budget and how match funds will be used. Applicants may satisfy this match requirement with either cash, in-kind services, or a combination. The formula for calculating match is:

$$\frac{\text{Award amount}}{\text{Federal Share}} = \text{Adjusted Project Costs} \times \text{Recipient's Share} = \text{Required Match}$$

Example: For a federal award amount of \$300,000, match would be calculated as follows:
 $\frac{\$300,000}{75\%} = \$400,000$

$$\$400,000 \times 25\% = \$100,000 \text{ match}$$

Performance Measures

To assist in fulfilling the Department's responsibilities under the Government Performance and Results Act (GPRA), P.L. 103-62, applicants who receive funding under this solicitation must provide data that measures the results of their work. Performance measures for this solicitation are as follows:

Program Goals	Performance Measures	Data Grantee Provides
Ensure compliance with the Sex Offender Registration and Notification Act under AWA.	<p>Percentage of registered sex offenders in compliance with sex offender registry requirements.</p> <p><u>For address verification projects:</u> Percentage of registered sex offender address records verified or updated.</p> <p>Percentage of non-compliant sex offenders identified as not residing at their registered address.</p>	<p>Total number of offenders who are registered in the jurisdiction each month during the project period.</p> <p>Total number of offenders who are in compliance with AWA registry requirements each month during the project period.</p> <p>Total number of offenders identified for non-compliance with AWA registry requirements during each month during the project period.</p> <p>Total number of sex offender address records that were either verified or updated each month during the project period.</p>
